

Laurel Hills Homeowner's Association Home Improvement Application Review Process

1. Homeowner completes the Home Improvement Application (HIA) and (1) submits the form to a member of the Architectural Control Committee
2. An initial screening of the HIA is conducted to check for completeness and neighbor approval. This action is typically accomplished by the Architectural Control Committee Chairperson.
3. The HIA is distributed to LHHA Architectural Control Committee members for review and compliance with covenants.
4. Architectural Control Committee members make site visits, interview affected neighbors, perform research, and seek clarification from applicant (all actions as required).
5. The Architectural Control Committee discusses the HIA, as required, to gain consensus on approval or denial of the HIA. A decision on the HIA is made.
6. The Architectural Control Committee Chairperson notifies the applicant of the HIA disposition. The signed HIA is returned to the homeowner.

Laurel Hills Homeowners Association Home Improvement Application

Date: _____

Lot #: _____

Name: _____

Phone: _____

Address: _____

The following are planned changes to our property and or exterior of our home, which will alter the current appearance.

- Change exterior paint color: (attaché color chip sample (s))
- Add or change decks, driveways, walks, sports facilities, etc.
- Add fences or fence like plantings
- Add additions or make structural changes to our home
- Add structures such as tree houses, playhouses, sheds, garages or antennas
- Remove trees more than 5 inches in diameter from setback areas

Please give us a description of the planned changes, and the estimated project start and end dates. Attach any projected plans, drawings, or other supporting documentation.
